HOW TO USE THIS MAP

This map shows major road signs for you to watch out for so that you feel confident that you are on the right track. The map gives distances in kms from the start of the Freeway and arrows to indicate the direction you need to follow. Don't forget to reset your tripmeter at the start of the Freeway.

Following this map to Sign 15 (156 kms) will bring you along Richardson Road to reference J11 on the map on pages 4 & 5, which gives a more detailed view of a section of Port Stephens. From here, use this map to find your specific destination.

If you experience any difficulties, phone the Visitors Information Centre at Nelson Bay 4981 1579 or look out for one of the many Satellite Information Centres conveniently located around the district.
